TEN CENTS PER WEEK

George Freeman's Stomach Held Traces of Morphine and of Other Poisons Under Chemical Analysis

No Statement Will be Made
Public Until the In-
quest.

Coroner Has Not Yet Set a
Date For Formal
Hearing.

Louisville, June 29. (Special.)—Examination into the contents of the stomach of George Freeman by the Louisville Research laboratory indicated the presence of large quantities of morphine and smaller quantities of hyosine. There was plenty of morphine to cause his death.

Dr. C. L. Nollau returned early this morning from Louisville, where he took the stomach of George Freeman, the condemned man who committed suicide in the jail Thursday night, to be analyzed at the Research laboratory. He brought the analysis with him, and, although the contents of the analysis will not be made public until the coroner's inquest, it is generally understood that in the stomach were found traces of a mixture of morphine and other drugs, and that the formula can be traced directly to the person, who supplied it to Freeman.

County officials are reticent. County Attorney Barkley said he will do nothing until the coroner acts; but that if there is evidence pointing to the guilty collusion of anyone in the suicide, he will lay the matter before the grand jury at the next term of court. The report is in the hands of County Physician Dr. L. E. Young.

Coroner Eaker has set the date for the inquest Friday at 2 o'clock at the city hall.

Cigar Man Resigns.

Will Garrabrant, manager of the Palmer House cigar stand, has tendered his resignation to become effective July 5. Mr. Garrabrant has accepted a position with the Duquesne Cigar company, of Pittsburgh, with headquarters in Louisville, and will leave, as soon as his resignation is accepted, to assume his new duties. Mr. Garrabrant came here from Louisville, succeeding Felix St. John, about six months ago. The local office will be in charge of Oscar Starks, who has been assistant under Mr. Garrabrant.

Mysterious House Raided.

New York, June 29.—Policemen Joseph Becker and William Meyers early today went to investigate a disturbance in a boarding house at Fifty-Ninth street. The former was shot in the neck by an unknown in an up-stairs window. The reserves were called and arrested twelve, including some women. They found \$1,100 in a basement stove. None would admit ownership. Authorities are making further investigation of the mysterious house.

Lightning Kills Two.

Bloomington, Ill., June 29.—William Mortimer and Edward Morris, of Middletown, two farmers who took refuge behind a hedge fence during a storm, were killed by lightning.

Dry's Win Election.

New London, O., June 29.—The "drys" scored a victory in the local option election, having a majority of 132. Only the village of New London is affected.

MINISTER WILL TAKE REST AT HIS OLD HOME.

The Rev. C. E. Jackson, pastor of the Tenth Street Christian church, will leave next week for a two months' vacation at his home, Samsonville, Ga. It is Mr. Jackson's intention to return here about September to return here about September. Health is benefited by the rest and change as anticipated.

Robbery or Revenge?

Chicago, June 29.—William Dorsey, of Glibbards, Ill., and C. C. Walker, of Fayette, Mo., both cattlemen, are in the hospital today. Dorsey was shot in the abdomen seriously. Walker is shot in the head. According to Walker's story, he was confined in jail in Mexico, three years ago, through false testimony of Dorsey. He sought revenge. Yesterday through a third man he decoyed Dorsey to take an auto ride on the pretense of discussing a cattle deal, and shot him. Dorsey wrested the pistol from Walker and shot him. The third man, who gave the name of Graham, escaped. Dorsey says his valuable diamond and thirty dollars in cash are missing.

THIRD STORY MAY BE ADDED TO CITY HALL TO GET ROOM

Mayor Smith Probably Will
Call Joint Session of
General Council.

Proposal in Interest of
Economy of Funds.

WOULD MOVE FIRE STATION.

Plans for the addition of a third story to the city hall may be considered at a joint session of the general council boards Thursday night. Mayor Smith, while not committed to the idea, thinks enough of it to suggest the matter officially to the legislative department of the city government. The reason for the suggestion is economy, in view of the fact that a thousand dollars or more are to be spent, building vaults in the old ramshackle structure, in which the city engineer's, sewer inspector's and street inspector's offices are located, and considerable amounts in repairing the city hall roof and the No. 1 fire station, on North Fourth street.

A bond issue for a new city hall was first proposed, but Mayor Smith and many of the members of the general council oppose the idea. Then it was discovered that the walls of the city hall were built with a view to the addition of a third story when necessary.

Mayor Smith said the case for the affirmative rests in that sort of economy which would avoid waste.

The city owns the two buildings east of the city hall, and in the farther one the engineer and street and sewer inspectors are housed, at a distance from the other officials, so that much waste of time and much inconvenience, little appreciated by the public at large, are constantly experienced. But the principal fault is that it has been found necessary to give the engineer fireproof vaults in which to store valuable records. If the money is spent on the old building, which is disintegrating and in constant need of repairs, eventually it will be wasted.

No. 1 fire station is in a dangerous location, the firemen being forced to dash out on a crowded street at every alarm. Moreover, a new roof, a concrete floor and other repairs are needed, and there is not sufficient room for the proper accommodation of the apparatus and men and horses. Chief Wood is constantly compelled to make requisitions for repairs.

It is believed that if the addition is built to the city hall, the fire station will be removed to the position now occupied by the engineer's office, bricks of the old building being used in the construction of the fire station. That would assemble the city departments in one block.

The Cost.
The addition can be made for about \$10,000. If it is made, the councilmen and aldermen will be moved to the top floor, where they can hold sessions the same night, thus avoiding much of the present delay in transacting important business. The engineer and related departments probably would have offices in the council chamber and the auditor and treasurer probably would be moved down stairs, where they would be more accessible. The mayor's office probably would be moved upstairs.

Eventually this will have to be done; for unless an equal amount is spent on the building, where the engineer is located, it will tumble down ere many years; and the first time the firemen kill or seriously injure some one around Fourth street and Broadway the public will demand a change, and the money spent on the present station will be wasted.

Whether or not a majority of the general council would favor the project, it is impossible to say, but the plan just now is to lay the matter before the members and have it threshed out. Mr. Weikel, who has the contract for repairs to the engineer's office, is holding up the work, to permit time for discussion of a change of plans.

Mrs. Agnes Yopp.
The funeral of Mrs. Agnes Yopp, who died yesterday afternoon, will take place tomorrow morning at the St. Francis de Sales Catholic church at 9 o'clock. There will be a regular high mass. The burial will be held in Mt. Carmel cemetery. The pallbearers will be selected from the church societies of which Mrs. Yopp was a member.

The active pallbearers are: George Bondurant, J. J. Dorian, Dr. Kidd, Henry Snyder, John Arta, George Lee. The honorary pallbearers are: Mrs. J. Trantham, Mrs. George Lee, Mrs. W. Lydon, Mrs. C. E. Spence, Mrs. John Schroeder, Mrs. C. E. Maxwell, Mrs. A. Budde, Mrs. J. L. Keegan.

Six Cent Tobacco Tax To Come Off.

ALDRICH AGREES
TO IT AND HE IS
PREPARING BILL

Senator From Rhode Island
Thinks Time to Quit Dis-
cussion of Tariff.

Washington, June 29. (Special.)—Senator Aldrich withdrew his objections to the removal of the tax on leaf tobacco and is having a bill prepared for that purpose.

Taft at Yale.

Washington, June 29.—President Taft will start late this afternoon to assist in the Yale commencement exercises. He will arrive at New Haven at 2 o'clock Wednesday afternoon, and will be the guest of President Hadley. He will make an address to the graduates. He will visit the fraternity houses.

Cummins Opposes Tax.

Washington, June 29.—Senator Cummins, of Iowa, in a speech in the senate, attacked Taft's proposed corporation tax amendment, contending it violates the fundamental principles of taxation. It is an income tax, he says, even if it does only include incomes of corporations. Commenting on the fact that the supreme court once decided the general income tax unconstitutional, he said all courts frequently have reversed themselves and could do so again. He reviewed the legal decision on the subject.

Aldrich Would Drop Tariff.

Washington, June 29.—Brown, Republican, of Nebraska, this morning sought unanimous consent of the senate to give immediate consideration to his income tax amendment to the constitution. Bailey, of Texas, objected. During the discussion Aldrich announced he would object to consideration of further amendments to the tariff schedules, believing the senate has reached the stage where it should close work on the bill.

Washington, June 29.—After seventy days of almost continuous debate the senate concluded the discussion of the schedules of the Payne-Aldrich tariff bill. Five minutes afterward the senate adjourned to permit preparation for the debate on the corporation and income tax questions.

The proceedings consisted of a general and final clearing up of the passed over provisions in both the dutiable and free lists of the tariff bill. Cotton bagging and cotton ties, and incidentally binding twine, occupied much of the senate's time. Early in the day McLaughlin moved to place bagging on the free list and contrary to general expectation the motion prevailed. The southern senators were, however, not so fortunate with cotton ties, which they also desired to have made free of duty. Culbertson proposed a change in ties. He came within seven votes of winning the vote, standing 31 to 38.

The duty on structural iron and steel valued at more than 8-10 of a cent a pound was increased from 3-10 to 4-10 of a cent per pound, being an addition to the house rate of 1-10 of a cent. The rate on steel of lower value was left unchanged. On zinc in pigs there was also an addition of half a cent a pound over the house rate of one cent.

Ineffective efforts were made to have school books, salt and Egyptian cotton placed on the dutiable list. Bacon, who offered an amendment for a duty on cotton, said that the same rates placed on wool cotton would produce a revenue of \$9,000,000 a year. He proposed four cents a pound. Tillman also declared that by the adoption of his ten-cent rate on tea another \$9,000,000 could be added to the treasury receipts.

In the House.

Washington, June 29.—After adopting the conference report on the census bill the house adjourned until Thursday. No other business, except the introduction of bills and resolutions, was attempted.

Wages Increased

New York, June 29.—July first practically all the independent steel and iron companies will have restored the ten per cent wage cut, made in February, when the steel trust declared for an open market. Ten thousand men are affected. The companies saved about four millions by the cut. Trade conditions are unexpectedly good. The wage restoration is two months ahead of expectations.

Committee is Selected to Appraise Boulevard

A committee, composed of W. B. Walters, real estate man, Everett D. Thurman, proprietor of the St. Nicholas hotel, and Edgar W. Whittemore, real estate man, appointed by Dr. D. G. Murrell, chairman of the park commissioners, will make a report at the next meeting of the city council as to the value of the property on Tenth street for the purpose of making it a boulevard. This committee

was appointed about a week ago by Dr. Murrell on recommendation of the joint finance committee of the general council and other city officials. The committee appointed has been active in getting up its report and its report before the council will be on the real value of the property needed by the city to make Tenth street wide enough for a boulevard from Kentucky avenue to Jackson street.

SMEDLEY'S DOSE WOULD BE FATAL TO SEVERAL MEN

Has Tried Several Cures For
Morphine But Without Ef-
fect—May Have Lunacy
Inquest.

County Attorney Alben Barkley has demanded more evidence from Hendrick & Corbett, attorneys for Hiram Smedley, former county clerk, in jail charged with forgery and embezzlement before he will institute a lunacy inquest before Circuit Judge Reed. The affidavit of County Jailor Eaker, that he thinks Smedley insane, has been filed with the county attorney; but it is said others will testify that they think Smedley is suffering only from the effects of his daily dose of morphine. It is understood that County Physician Young has been asked for his opinion, and he will be an important witness in case of an inquest. Even if Smedley is found insane and sent to the asylum, if he recovers he can be sent back here and tried. The only insanity that could save him from conviction, should he recover, would be insanity existing at the time he committed the crimes.

Smedley has been shouting and carrying on the last few days, to the annoyance of the neighborhood of the jail. His daily dose has not been cut down; but a few days ago jailor Eaker feared Smedley was contemplating suicide, and he called in Dr. Young, who said Smedley's morphine should be kept out of his reach, lest he do himself harm. Since then it has been kept in custody of the jailor, although Smedley is allowed to have his customary doses, eight grains every five hours. One of these doses would kill three normal healthy human beings.

Physicians say that depriving him of his doses would result in insanity, if not death, unless a special course of treatment was given. Smedley said he has taken treatment in St. Louis and Cincinnati several times, but always he has come away, his system relieved, but not entirely free from an easily awakened desire. He takes the tablets, which contain morphine, caffeine and other ingredients, and heats them with a match, before hypodermically injecting the poison into his body. He said when he would return from these institutes, the sight of a lighted match would simply set him crazy for the drug. He has been using it since 1902. Drug fiends begin with a very small amount and gradually increase the dose until they can get away with huge quantities such as Smedley uses.

Hon. John K. Hendrick, Smedley's attorney, said that tomorrow physicians will examine Smedley as to his apparent sanity and their opinions will be submitted to County Attorney Barkley. It is expected the sheriff will then summons a jury tomorrow or next day and the inquest will be held before County Judge Lightfoot.

Yeggs Get \$3,000

Chicago, June 29.—Three marked men in an automobile early today dynamited the safe of the postoffice of Leland, Ill., and escaped with \$3,000 in money and stamps, after a fight with citizens. One robber was wounded.

TOBACCO CONDITION REPORTED EXCELLENT

Frankfort, Ky., June 29.—The agricultural commissioner's report shows the acreage of dark tobacco 100 per cent of the crop planted. The condition is 96 per cent.

BRANDENBURG GOES ACQUIT ON ONE CHARGE

IMMEDIATELY ARRESTED
FOR KIDNAPING HEIR
OF CABANNE

CLEVELAND LETTER FOR-
GERY CASE COMES TO
NAUGHT TODAY.

New York, June 29. (Special.)—Broughton Brandenburg, the magazine writer, who sold to the New York Times a letter, purporting to be signed by Grover Cleveland during the campaign, and devoted to the men and issues of the campaign, was acquitted by a jury this afternoon, after two hours and forty minutes' deliberations. Brandenburg was immediately arrested on a warrant from St. Louis, charging him with kidnaping the son of Mr. Shepard Cabanne, with whose divorced wife, formerly Miss Minnie Leonard, of Eddyville, Ky., Brandenburg has been living. Brandenburg stole the child out of St. Louis in a big basket and took him to San Francisco.

Men Win Strike.

LaCrosse, Wis., June 29.—After having been settled once and then repudiated by the men, the street railway strike was finally and positively settled this afternoon. The man gain all points, except that the company is to operate an open shop.

Infant Dies.

Mrs. Frank Baker, of 518 Tennessee street, received a telegram from her sister, Mrs. Robert Turk, of Earl, Ark., announcing the death of her few months old infant. The body of the infant will be brought to this city tomorrow morning and the funeral will be held at the residence of J. W. Eaker, of Ninth and Clark streets. The burial will be in Oak Grove cemetery.

The Rev. J. M. Barfield.

After a well spent and fruitful life, the Rev. J. M. Barfield, of Little Cypress, answered the final summons yesterday evening at 6 o'clock. Mr. Barfield was one of the best known and respected men of this part of the state, and his death will cause widespread regret. Mr. Barfield was pastor of the Missionary Baptist church. He leaves a wife, three sons and five daughters and a wide connection. The funeral took place this afternoon at 2 o'clock.

Miss Fowler's Funeral.

After services yesterday afternoon at the family residence, 619 Kentucky avenue, the body of Miss Rosebud Fowler was laid to rest in the family lot in Oak Grove cemetery. The services were impressively conducted by the Rev. G. T. Sullivan, of the Broadway Methodist church, and the Rev. D. C. Wright, of Grace Episcopal church. The floral tributes were many and beautiful. The pallbearers were: Messrs. Richard Rudy, A. S. Thompson and James P. Smith, Dr. I. B. Howell, Dr. Frank Boyd and Dr. J. Q. Taylor.

The Hot Wave

Philadelphia, June 29.—Nine more deaths were added to the heat victims in this city. This makes a total for the present hot spell of more than two score.

Indiana Suffers.

Indianapolis, Ind., June 29.—Two deaths and many prostrations, resulting from the intense heat in Indiana, Henry Burelman, of Indianapolis, fell dead while walking along the street. At Matthews, Ind., Thomas Benson, aged 30, dropped dead. The maximum temperature in this city was 88 but in Southern Indiana 97 was reached.

Seventeen St. Louis Victims.

St. Louis, June 29.—The third day of the hot spell resulted in one death and a number of prostrations. There have been 17 deaths at the city hospital the last three days, indirectly due to heat, which lessened the vitality of patients.

TREES, FLOWERS AND GRASS

and Fresh, Pure Air

AT WALLACE PARK

The Evening Sun's Daily Markets.

Livestock.

Louisville, Ky., June 29.—Cattle.—Receipts, 1,827 head. There was a very good attendance of buyers on the yards, but the demand generally seemed to be lighter than usual, and the market ruled slow. Choice finished butcher cattle sold about steady but all medium and inferior kinds were dull, draggy and unevenly lower. Grassy cows and heifers, as well as unfinished 800 to 1,200 pound steers, were exceptionally dull. The feeder and stocker market was dull, the best barely steady, all others lower. Bulls slow to shade lower. Canner and cutter trade dull. Milch cows very slow sale. Not many prime shipping steers here. They were slow, and the medium to light shippers were dull and lower. Pens fairly well cleared. Market closed slow.

Calves.—Receipts 232. Market about steady. Bulk of best, 6½¢ to 7¢; medium, 4¢ to 6¢; common, 2½¢ to 4¢.

Hogs.—Receipts 3,231. The market ruled mostly 5¢ higher on good corn-fed hogs. Selected 165 pounds and up, \$7.00; 130 to 154 pounds, \$7.20; pigs, \$6.65; light pigs, \$5.00; roughs, \$6.90 down. Buyers discriminating against grassy, half-fat hogs and light pigs are extremely dull.

Sheep and Lambs.—The receipts were 8,332 head, a good per cent of the number being stock sheep, and the lambs run largely to the medium and fair kind, with a good many culls. The trade was slow and bulk of the best lambs here sold at 8¢ to 8½¢, with a few cars prime lambs as high as 8½¢. In fact, the few prime lambs here changed hands more readily at 8½¢ than the medium and fair kinds did at 8¢ to 8½¢. Seconds sold at 6¢ to 6½¢; culls, 3¢ to 4½¢. Fat sheep sold at 4¢ down. The stock ewe trade was rather slow. Prices are so high that buyers are taking hold reluctantly, and they want only the best ewes. Common, trashy sheep very dull.

St. Louis, June 29.—Cattle.—Receipts 8,500, including 6,500 Texans; steady; native beef steers, \$4.50 to \$7.25; cows and heifers, \$5.40 to \$7.10; stockers and feeders, \$3.70 to \$4.85; Texas and Indian steers, \$3.60 to \$6.00; cows and heifers, \$2.45 to \$5.05; calves, in carload lots, \$5.30 to \$8.10. Hogs.—Receipts 5,000; steady; pigs and lights, \$5.65 to \$7.75; packers, \$7.65 to \$7.90; butchers and best heavy, \$7.65 to \$8.15. Sheep.—Receipts 3,000; lower; native muttons, \$3.90 to \$5.35; lambs, \$6.10 to \$8.25.

Clarksville Tobacco

Clarksville, Tenn., June 29.—The tobacco market continues active. The receipts in this market will be much larger than last year and quick sales are being made. The receipts in the independent market last week were 267 hogheads; sales 117 hogheads. The receipts on the loose floor amounted to about 65,000 pounds. The tobacco has nearly all been delivered, but few crops remaining in the barn. The local salesman of the Dark Tobacco growers association sold during the week 1,166 hogheads, of which the Spanish buyers took 737 hogheads at from 4¢ to 5¢ per pound. Last year an exorbitant schedule drove this buyer to the eastern growers, of which she took over 200,000 bales, way below our prices. Home buyers purchased 429 hogheads and wanted more.

Worms are showing up at some places, and may cause much injury to the growing crop in August.

The Child's Blessing.

A little girl of seven, with sunny eyes and yellow hair, stood by at that moment, and her love for the child's happy face the bishop touched her head and said, "God bless you, my sweet child."

The little one lifted her innocent eyes to his eyes, and answered with a courtesy, "And God bless you, too, sir."

"Thank you, child, thank you," said the bishop, "I do not doubt that your blessing will be as good as mine."—The Deemster.

'Tis not the whole life to live, nor all of death to die.—Montgomery.

MOST EFFECTIVE
TORPEDO FOUNDDEADLY INSTRUMENT AT LONG
AND SHORT RANGE.

Expert in Bureau of Ordnance Discovers Motive Power Which Will Revolutionize Warfare on Seas.

AN AMERICAN THE INVENTOR

Washington, June 29.—The United States government now owns and controls what is believed to be the most effective torpedo in the world.

The new engine is the invention of an expert in the bureau of ordnance, navy department. It will be one of the preponderating elements of offense and defense as compared with the torpedoes in use by other nations. It has been tested and will be manufactured in numbers so that all the new battleships may have them as part of their equipment.

The torpedo used by most of the nations is familiar to all naval powers, so that there is no special benefit to be had from their use except in the relative daring of the commanders of warships. Ships can now be fought at a distance which makes the torpedo more of an ornament than a terror because it has been found impossible to create such a motive power as will make the torpedo a factor both at long and close range. The two distinctive elements of the torpedo of the bureau of ordnance are the required motive power for long fighting and the explosive with which the torpedo is charged.

Half Dozen Schemes.

The navy department has been experimenting with a half dozen schemes for a new motive power, but all of these have been rejected in favor of the bureau's own device. The tests of the torpedo have been held near Washington and New York. These tests related only to the motive power, one test being in the comparatively calm water of the river and the other in calm sea and stormy sea near New York.

The experts say that the invention being complete and practical adds immeasurably to the fighting power of the new ships and in fact puts them ahead of anything in the world. The Florida and Utah, the Wyoming and Arkansas will be equipped with the new engine of destruction.

R. G. Dun & Co.'s 68th Birthday.

R. G. Dun & company have just issued to their subscribers a magnificent calendar, dating from June, 1907, to May, 1910. Aside from its merit as a work of art, it is the epitome of this world-wide institution and the calendar is gotten out to celebrate the anniversary of its sixty-eighth birthday.

The growth of the business, as shown by the calendar, is remarkable, commencing with one office in New York sixty-eight years ago, and it now has under its own name, owned by itself, two hundred and fifty branch establishments throughout the world. While its growth in this country has been phenomenal, it is also equally striking in foreign countries, as it is only within the last few years that an institution of this kind, adopting American methods and peculiarly an American institution has been started abroad.

In addition to the calendar indicating its various offices, it has a record of the statutes of limitations of the various states of the Union. In view of the work which the agency of R. G. Dun & company has accomplished, it was rightly stated, a short time ago at a banquet that "no true history of American commerce could be written without the Mercantile Agency of R. G. Dun & company left out."

It is a meritorious piece of work and Mr. Robert E. Little, the it manager, is being congratulated because of it.

An Embarrassed Judge.

Judge Strout, of the Bucks county (Pa.) court, was placed in an embarrassing position while presiding at a gambling trial recently. In charging the jury the judge said: "While many apparently overlooked the fact, under the laws of this state every game played for a stake 'is gambling, whether it is progressive euchre, bridge whist, dominos, checkers or dice, and is a violation of the law, and the participants are liable to be indicted and compelled to face the jury.' Counsel for the defense, producing a local newspaper containing an account of a bridge party at which Judge Strout's wife had drawn a prize, aroused a hearty laugh in which the court joined.

A Policewoman.

Mrs. Josephine Sullivan is the first policewoman of Chicago. She was sworn in the other day and invested with all the authority and privileges given to special policemen of that city. She was assigned to detecting thieves and pickpockets in the department stores.

Prince Edward of Wales, the oldest son of the Crown Prince of Wales, has just entered the Royal Naval College at Dartmouth as a cadet, after having completed his training course at Osborne.

Police Protect Empire.

Washington, June 29.—Boston made it four out of five by defeating Washington. Each side used three pitchers. O'Loughlin's decisions failed to please the spectators and he had to be escorted to the cars by the police.

Score: R H E
Washington 5 10 0
Boston 6 12 1
Batteries—Altrock, Groom, Johnson and Street; Wood, Steele, Arrillanes and Spencer.

Peltz Was Steady.

St. Louis, June 29.—Steady pitching by Peltz and hard hitting by Hoffman and Jones and Ferris resulted in the defeat of Cleveland.

Score: R H E
St. Louis 6 9 5
Cleveland 9 3 1
Batteries—Peltz and Criger; Sitton, Falkenberg and Bemis.

Detroit Wins in Tenth.

Chicago, June 29.—The two-bagger by Killiger and Schmidt's single won the game for Detroit in the tenth inning. The fielding feature was the spectacular catch of a bunt fly by Stanage. Atz, of Chicago, and Cobb and Schaefer, of Detroit, were put out of the game for disputing the umpire's decisions.

The score: R H E
Chicago 1 7 2
Detroit 2 7 3
Batteries—Burns, Walsh and Sullivan; Summers, Speer, Willett and Stanage.

Won in Ninth.

Philadelphia, June 29.—After two men were out in the ninth inning, New York scored two runs on Elberfeld's single, four balls to Chase, a wild pitch by Morgan and Engle's single, winning the game.

The score: R H E
Philadelphia 1 6 0
New York 2 4 0
Batteries—Morgan and Thomas; Doyle, Manning and Sweeney.

Work Delayed By Rain Nearly Everywhere Except in Oklahoma, Texas and Louisiana.

SOME FIELDS ARE ABANDONED.

Memphis, Tenn., June 29.—The condition of the cotton crop at the close of the week was worse in Mississippi, Alabama and about two-thirds of Georgia than at the close of the preceding week. Continuous rains stopped cultivation and the grass made such headway that a greater percentage of the fields must be abandoned. Some crops have received no cultivation at all. The best of weather in the future cannot repair the loss already sustained. The plant in these states, even where partially cultivated, is small and growing slowly. It is far behind last season.

Elsewhere the crop has improved. The improvement in North Carolina, South Carolina, Tennessee and Arkansas was not great, being rather less than normal, because rains delayed work and prevented the farmers putting fields in a good state of cultivation. It is still possible, however, in these districts to regain much of the loss.

In all these states it is highly desirable that the rains cease and clear, warm weather succeed. In Oklahoma, Texas and Louisiana cotton made normal progress, and is now in the best condition of the season.

BIG REWARD

IS OFFERED BY CHICAGO FOR BOMB THROWERS.

Three Thousand for Information Concerning Desperate Perpetrators of Fiendish Crime.

Chicago, June 29.—Mayor Russell was authorized by the finance committee of the city council to offer a reward of \$3,000 for information leading to the arrest and conviction of persons responsible for the damaging explosion of last night.

Assistant Chief of Police Schuetler appeared before the finance committee and asked for an offering of a reward because of the difficulty his department has had in finding the guilty ones. The reward applies only to the last explosion.

Thomas Courtney, who was arrested charged with complicity in an explosion which occurred at the Coliseum some months ago and who was exonerated after being held a week, will be questioned by the police in regard to his knowledge of the last explosion.

Courtney is under indictment on another charge and his trial has been called for next week after pending for nearly a year. It is said the police have been searching for Courtney, who is out on bail, and have been unable to find him.

Accordingly States Attorney Wayman has been asked to hurry his trial so the police can get him into court as soon as possible and question him.

KEPT HIS HEAD

AND THEREBY SAVED HIS LIFE UNDER STREET CAR.

Elroy Koken, Knocked Down Seizes Front End and Is Dragged Some Distance.

Elroy Koken, a Greek, narrowly escaped being killed last night when he was struck by a Jackson street car on Broadway between Fourth and Fifth streets. Koken is 19 years old and is employed at the stand of Pete Caporal. He started across the street to get change for \$5 when he was hit by car No. 61, in charge of Motorman L. A. Pirle. Koken was knocked down on the track but he had presence of mind to reach up and grab a cross-bar on the car. He was dragged about 20 feet and bruised about the right arm and shoulder.

Wythe—I don't know what to do with my boy. He seems to know nothing. Can't remember a thing, and is irritable and cross.

Smythe—Why don't you get him in the bureau of information at some railroad station?—Milwaukee Sentinel.

"Why didn't you get rid of that male?" "Well, sah," answered Mr. Ernest Pinkley, "I hates to give in if I was to trade dat male off, he'd regard it as a personal victory. He's been tryin' foh de las' six weeks to get rid of me."—Washington Star.

Better Stir up Your Liver a Little!

Not too much, just a little, just enough to start the bile nicely. One of Ayer's Pills at bedtime is all you need. These pills act directly on the liver. Made for the treatment of constipation, biliousness, dyspepsia, sick-headache. Ask your doctor if he knows a better pill for a sluggish liver. Then follow his advice.

Secretary Knox Accomplishes a
Coupe on Japan in Chinese Loan.

Washington, June 29.—Although the intelligence has not yet dawned upon most people, there is a well settled conviction among the insiders in the game of world politics that Secretary of State Knox has executed a neat coup on Japan by boosting the game of American finance in China and securing for American bankers a portion of the loan for the Hankow railroad extension.

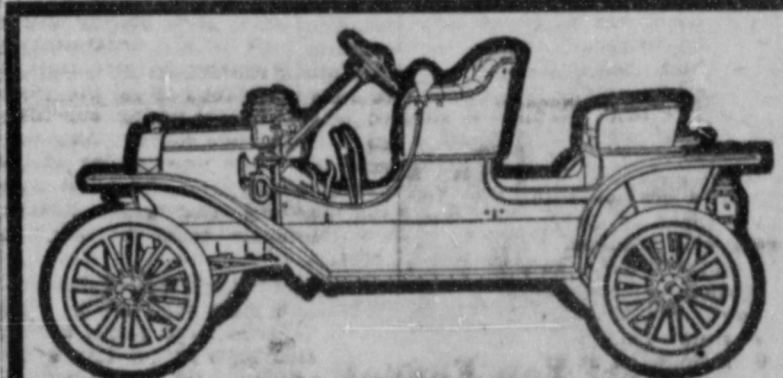

Diplomatically speaking, it amounts to putting a spoke in the Japanese wheel. There have been no outcries on the part of the Japanese press. The mikado has been busy reading despatches from Admirals Uriu and Ijehi telling about the hospitality of Americans. On the surface, Japan is tickled to death with everything—except, perhaps, Hawaii. Those who know how to interpret the silence of the Japanese press, however, as well as its utterances—it is absolutely obedient to the will of the state—see in this silence chagrin and utter rout. It is evident that the oriental government regards the coup as of such importance that the newspapers have not been allowed to comment upon it. The report of the new policy to promote American financial interests in China has been received with utter silence.

How things could be explained in any other way than the supposition that the government has muzzleed the press, nobody of the western world knows. Japan's project is the commercial development of China. They have kept it in and out of season, in some instances going to such an extent in favoring Japanese merchants that protests have been made to their governments by the merchants of other nations. The action of Secretary Knox, therefore, constitutes no less than putting a finger in the pie. Japan's own particular pie, too.

CHEAP WOOD.

Best and cheapest wood in the city 25 cents per load at mill. Third and Elizabeth streets. FERGUSON PALMER CO.

The Teacher—All your arithmetic problems are wrong. If this happens again, I'll tell your father. The Pupils—But pa did 'em for me!—Cleveland Leader.

A REAL TEST

The Real Test of an automobile is to drive it long distances over country roads and take them as you find them. The New York-to-Seattle contest, which event has just been won by a FORD MODEL "T," was a real test, and the victory won by a stock car, just the same as are being delivered here, and at the rate of 75 automobiles per day throughout the country. To build a car that wins admiration on city boulevards and streets, and compels notice in a transcontinental contest requires that rare engineering skill possessed by few designers.

HENRY FORD, America's best designer, really builds his automobiles—not after foreign or home models, but after his own ideas—Ford automobiles are different. No other automobile is built of heat-treated vanadium steel, no other automobile has its own magneto built within the engine, no other rear drive like FORD'S, no other engine like ours. None so light, none so loved by their owners and knocked by competitors. None so low in price, none so low in up-keep. The FORD line represents long years of careful tests, costly and painstaking experiments, and as a result we can justly lay claim to the honor of producing

America's Best Automobile
THE FORD

Forget the price—consider only quality. There is the highest price quality and lowest price combined in the FORD.

Light weight has proven all we claimed. Vanadium Steel was put to the test and—WE WON.

Wilson's Fountain

The place where good things to drink are served clean.

THE ANT

Facts About One of Nature's Most Industrious Creatures.

When spring comes with all its wealth of opening buds and new flowers, the ant is preparing for a season of profitable industry.

It comes out of its winter quarters and locates a new home where it can store away, during the summer months, the sustenance for the long winter days.

Just as industrious as the ant—but in a different way, are the countless infinitesimal germs which burrow into the scalp and eat away at the roots of the hair.

As they burrow away dandruff forms, and if the germs are not all killed, baldness results.

Newbro's Herpicide is the only known remedy which kills the germs.

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. \$1.00 bottles guaranteed. R. W. Walker Co., Special Agents.

Chinese Superstitions.

The Chinese are invariably courteous and considerate if you take them the right way. Superstition, of course, is deeply engrained in their natures, and a kind of Kismet policy, after the manner of the Turks, takes possession of them, so that whatever is going to happen will happen and there the matter ends.

Battling against fate for a Chinaman is sheer waste of time, and he simply bows his head to the inevitable. Take for example the strict attention or rather the devotion that is paid to "feng-shui" on the Yangtze. Feng-shui is the superstition that determines good site or locality, and if a town on the Yangtze has not a good feng-shui trade will not come to it and it will be ruined.

A town named Pei-Shih had its pagoda in the wrong place, not far enough down the river in fact, the result being that Pei-Shih was left out in the cold. All the talk in the world would not convince the Pei-Shih folk that the depression could arise from any other cause than that of a bad feng-shui, so they pulled the pagoda down and built another one in the supposed right spot. So far prosperity has not returned to Pei-Shih, though the inhabitants live in hope.

The city of Wanshien, on the other hand, has a perfect feng-shui, two fine pagodas, one a thousand feet high, below the town, while Wanshien itself is very prosperous. The fact that Wanshien is situated in a most fertile valley where wheat, barley and poppy flourish abundantly, while Pei-Shih is barren and miserable, does not concern the inhabitants of these places so much as the feng-shui site. This absurd idea in the Chinese mind is only one of thousands like it.—Shanghai Mercury.

Lest You Forget

The first half of city taxes are due and payable this month. After July 1, a penalty of 10 per cent. will be added. For the convenience of those who can't get to my office during office hours I will keep the office open Saturday night, June 26, Monday, Tuesday and Wednesday nights, June 28, 29 and 30. Office is open from 7 a. m. till 5 p. m. continuously and these four nights from 7 till 9.

EXPORT WHEAT
SALES EXPOSED

SEND THE BEARS BACK TO COVER.

Winter Crop Promises to Be Excellent—Unsteady Week in the Corn Market.

PROVISION VALUES ARE WEAK

Chicago, June 29.—Wheat values were chiefly influenced by harvest news early this week, but during the latter part export news was the chief feature. The harvest news had been most bearish in tone and prices slumped accordingly, but developments in the export trade more than offset the bears' news, and great strength was manifested in the trade.

Exporters had previously been trying to keep the accomplishments quiet, but it finally developed that enormous sales had been made to European buyers. This is the usual plan of the exporters, as the news of export business usually excites the speculative market and temporarily spoils further negotiations for the sale of cash wheat abroad. The news of the big sales leaked out on Friday, however, and the market immediately turned strong, regaining the decline resulting from the favorable crop news. July gained 2 3/4c for the week; September, in which most of the export business was done gained 4 3/4c; December was 3 3/4c higher, and May for 1910 delivery gained 2 3/4c.

Export sales ranging anywhere from 1,000,000 to 4,000,000 bushels of wheat and 15,000,000 barrels of flour were made to Europe Friday on the firm offers submitted to foreign buyers the night before. It developed also that export sales of the preceding day had aggregated over 1,000,000 bushels. The business was so large that it was impossible to conceal it longer, as American exporters in general were in the speculative and ocean freight markets on a large scale and making the necessary arrangements to fulfill their contracts.

Advance in Ocean Freight.

Advances ranging from 3/4c to 1 1/4c per bushel in ocean freights on wheat were made at the various Atlantic ports and at Montreal. The bulk of the engagements were for September delivery, most of them for the first half of the month. Some little chartering was also done for the last half of August. Foreign buyers were paying the best premiums for the earliest date of shipment. It transpires that export concerns had been doing a good business in new-crop wheat for a week or more. Most of their sales abroad were on the basis of September delivery prices here, the foreign buyer avoiding the July delivery because of its excessive premium. Nevertheless, the export engagements at New York included 360,000 bushels for July shipment to Antwerp. This was presumably to make out some of the Chicago hard winter or the Maryland red winter wheat. Patten denied that his house had engaged any freight room for hard winter wheat last week to the continent.

Big Yield of Winter Wheat.

Crop advices early last week told of excellent yields of winter wheat in all sections where cutting or threshing has been done. Even Oklahoma, from which reports early in the season were disappointing, was reported around an average yield. Harvest returns in Illinois, Missouri and Indiana were excellent. There were comparatively few reports in from Kansas, but most of them were favorable. The Kansas crop report, indicating a yield not far from 80,000,000 bushels, put a damper on the pessimistic estimates that some

BLADDER TROUBLES NEED PROMPT ATTENTION

Perhaps you don't know how much work is required of your kidneys and bladder or of how much importance they are. Do you know that on these important organs hinges good health? Many an apparently strong, healthy man or woman has been stricken without notice by serious kidney and bladder disease only to realize too late what might have been prevented with proper care and attention.

Some of the early symptoms of weak kidneys and bladder are lumbarago, rheumatism, catarrh of the bladder, pain or dull ache in the back, joints or muscles, at times have headache or indigestion, dizziness, you may have a sallow complexion, puffy or dark circles under the eyes, sometimes feel as though you had heart trouble, may have plenty of ambition but no strength, get weak and waste away.

If you find you have some of the symptoms mentioned, you need then a remedy that will reach the seat of the disease and at the same time build up the system generally.

Such a remedy is Swamp-Root, the great kidney, liver and bladder remedy. In thousands of cases it has accomplished just the work you need performed now.

Sample Bottle of Swamp-Root Free

Send to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. It will convince anyone. You will also receive a booklet of valuable information, telling all about the kidneys and bladder. When writing, be sure and mention the Paducah Daily Sun. For sale at all drug stores. Price fifty-cents and one-dollar.

of the private "experts" had put out. Patten, who made a flying trip to Kansas, returned with the information that the state would not harvest 65,000,000 bushels, while W. H. Barrett, who left at the same time, returned with the report that the Sunflower state would harvest an average yield.

Late in the week heavy rains in the west and southwest helped along the market. Heavy rains were reported from many points in the interior of Kansas and Oklahoma. This was expected to delay harvest. Messages reported that harvest was in full swing in southern Kansas and that there was no ripe wheat as yet in the northern part of the state.

Spring Crop Promising.

Outside of a wet harvest, however, it is hard to imagine a disaster that could now prevent the securing of a fairly liberal crop of excellent quality winter wheat. It would also be hard to imagine a more flattering promise for a large spring wheat crop, although the latter has the usual plant-killing stage before it. The weather reports from over the winter wheat belt in the last few weeks have supplied all the information that the trade needs regarding the quality of the winter wheat crop. Timely and sufficient rains at filling time have insured a full grain, the added weight of which will go far toward making up the deficiency in the acreage planted. It is hoped that the spring wheat will do as well, relatively, and if it does, the total will be large enough to help in the restoration of farm reserves, now popularly believed to be very low in the spring as well as in the winter wheat country. In the event that the farmer holds to the recent level of prices established for the last half of the 1908 crop year it is highly probable that these reserves will be vastly replenished.

Advance in Corn.

Covering by shorts, principally in July, was largely responsible for an advance in corn early in the week. The bulge did not stick, however, corn later developing unmistakable weakness. It weakened on selling; that was mainly realizing or liquidation on the part of the miscellaneous longs. The local bear element meanwhile hammered the market as hard as possible. Support was poor and values gave way more freely than values gave way more freely than heretofore when the selling was more exclusively by shorts. There was a little better demand for cash corn for eastern shipment and a fair business was done for export. Corn crop reports were universally favorable, the weather conditions being counted ideal. Columbus, Neb., reported the corn knee high and said it would be waist high by July 4. July corn was 1 1/2c lower for the week, September lost 1/4c and December and May were unchanged.

Oats were weak on general liquidation and more or less short selling. Shipping demand was poor. Rust and insect damage as well as prospective losses from recent windstorms evidently had little effect on country trades, as these were selling quite freely. Near months were unchanged for the week, while later deliveries lost about 1/4c each.

Provision values weakened on miscellaneous liquidation and more or less short selling. The liquidation was particularly free in pork. The local bear interest hammered the market persistently. A provision specialist says that the undertone of the market is not of the character that has been so conspicuous of late and he looks for further realizing sales that are likely to depress prices. Packers are trying to force hog prices lower and the buyers were found to be less plentiful and enthusiastic.

Spain has reduced the cost of telegrams to America 50 per cent. The coal bill of the United States navy during 1908 amounted to \$5,645,000.

ORGANIZE CLUB
TO ASSIST YOU
IN BIG CONTEST

Get 25 Friends to Combine Strength in Your Support.

One Year Subscription Serve as Entrance Fees.

PINK SLIPS UP MANY SLEEVES

VOTING LIMIT.

From this time, until further notice, no candidate will be permitted to cast more than enough certificates, or pink slip votes, to place him more than 5,000 ahead of the leader at the preceding publication of scores.

For instance, if the leader of the entire contest has 20,000 votes to his credit at the last publication of scores, a candidate will not be allowed to vote more than enough certificates to make his score 25,000 in the next publication.

This restriction does not apply to the coupon votes clipped from The Sun or associate papers.

No candidate will be permitted to lead two days in succession if any other candidate has enough votes to pass him.

Here's a suggestion for contestants in The Sun and Associate Newspapers' Great Voting Contest:

Organize a club with your friends as members to support you. Have the membership twenty-five or more and make each member a personal Lieutenant. The initiation fee should be a subscription of at least a year.

"Join my club and help me win this prize," a candidate would say to all intended for membership and the size of the club in a short while would be surprising.

If you don't feel capable of organizing the club yourself send for one of the contest men and he will render you valuable assistance. That's the business of the contest men—helping the candidates—and don't let a feeling that you are getting an advantage over candidates restrain you from requesting his aid; for you are not.

Try out the club idea. Get your friends interested in your race and combined to help you. The subscriptions you will get in this way will be the kind that you cannot get in any other way.

This week, remember, is a week that demands effective work and you should leave no advantage to the other candidate that you may have yourself. The fourth bonus period will expire Saturday night, and the fourth bonus is the last large one.

THIRTY THOUSAND EXTRA VOTES for every \$25 worth of NEW subscriptions and TEN THOUSAND EXTRA VOTES for every \$25 of OLD subscriptions—this is the offer of the week.

Candidates who are not keeping their eyes wide open are warned that the contest is warming up. There are quite a number of pink slips up several sleeves and no candidate can afford to ignore this fact. The pace-makers must be kept in sight.

[Standing of contestants at noon, June 28.]

FIGURING ON EARTH'S VALUE

Land Left Unoccupied Fitted to Sustain Million More of People.

In today's World appears a letter in which it is suggested that 700,000,000 acres of swampy, marshy, and arid lands in North America could be reclaimed and made to yield immense crops; but what is the use to trouble ourselves about that yet, while we seem not to know what to do with what we already have in fertile acres?

The earth's fertile region now is 28,269,200 square miles, or 18,092,288,000 acres. One acre will be more than sufficient for the support of one person. My grandfather supported himself and my grandmother brought up eight children from the products of one acre, and that in the short-summered and long-wintered Sweden. Now those 18,092,288,000 acres, therefore, ought to support at least many humans instead of the comparative handful of 1,520,000,000 which is the number of the earth's inhabitants now. If the life of human averages thirty-three years, as the statisticians claim, it means that in 100 years 54,276,864,000 and in 1,000 years 542,768,640,000 loving human forms divine—and why not also so many precious eternal souls?—could have a chance to develop on earth.

Less than 82,000,000 people, with all their mismanagement, increased the wealth of the United States by more than \$27,000,000,000 in seven years. At that rate the could-be population of the earth, or about 18,000,000,000, ought to increase the wealth of this planet with at least \$84,000,000,000 in 100 years.—New York World.

Daily Thought.

No matter what your environment, or what you may be called upon to go through, face life like a man, without whining.—Success Magazine.

If the Dutch standard test of honesty should be applied to the sugar industry, the trust might not favor it.

Anarchists are determined that the czar's visits shall not be unattended by events worthy of one who claims divine rights.

The killing of Jesse Davis, colored, and the release of all suspects adds the fourth unsolved murder in Paducah in the last two years.

Walter Wellman, hero of the dash from Paris to the pole, has achieved a little local atmosphere through the death of a member of his party in an ice crevasse.

Three thousand speeches on the same subject—education—are being made in Kentucky today. If there is anything in "Concentration," all Kentuckians are thinking of the same thing today.

"AND LO! BEN ADHEM'S NAME LED ALL THE REST."

No more unfortunate title for a scholarly distinction ever was devised than "doctor of medicine"; for by that token the profession is judged and condemned of the ignorant and designing. It is generally believed that doctors try to cure diseases with medicines, and the trend of popular opinion is against that idea. Consequently, we have two classes of people, constantly frowning upon this long suffering profession: those, who say, "So-and-so knows how to give medicine as well as a doctor;" and those, who fear doctors because they don't wish to take medicines.

Such ignorance is deplorable and unjust to the one profession that conceives its duty to society to be of equal degree with its duty to the individual—its customer—if one will have it so; and that makes distinct personal sacrifices for the benefit of humanity. True, there are some undeserving men in the profession. In that respect doctors differ widely from the remainder of mankind. Among the rest of us, there are no drones.

No profession has made greater advances than that of medicine, and all at the sacrifice and toll of its members. No other profession has such a high standard of ethics and lives so close to it. No other profession has in its ideals and practical efforts so much of the Master's commandment of service and sacrifice to mankind.

Since the acceptance of the bacterial theory of diseases, doctors declare that such diseases are cured by an anti-toxin that the God, which created man, prepared his body to manufacture, and the doctor's efforts are only to assist nature in its work of rehabilitation. Antitoxins are sought that will reinforce that which

the body itself produces, and this is generally necessary, because we fail to obey the regulations, which nature prescribes for our benefit and immunity.

Surgical science has kept pace with its sister science; and in that the doctor is equally the victim of misrepresentation. The doctors inform the family that a patient is certain to die unless an operation is performed, and the chances of recovery from the operation are slight. We could not conceive of the doctors we know wantonly or ignorantly saying such a thing falsely. The family says to operate, and the patient dies. Then designing persons spread lies broadcast about the operation, and common rumor makes the doctor out a butcher. The general public does not know how kindly the family feels toward the physician and the surgeon, who did all that science and tender solicitude could to restore their loved one to health. The public only knows that the operation was performed and the patient died; and it is not possible for the doctor to rush into public print to deny something of which he is not accused by those most intimately concerned.

That is the doctor in the sick room, where he spends days and nights watching and studying, and from which he carries a burden that no other mortal can appreciate. But medical science is not resting with the care of the sick room from which the members derive their revenue. It is leading in the movement for the prevention of diseases. Medical science is delving deep into the cause of human illnesses, and first it has weak-kneed faith palmed best science disprove the gospel; and then it has capital in a rage, because it condemns unsanitary conditions and compels expensive but important reforms. Judged by the standards of any other calling, excepting that of the teacher and clergy, the doctors are cutting off their own revenue by trying to keep people well. Questions of sanitation and hygiene are urged on an unthinking public by the only people, who possibly could profit by the lack of them. Doctors are studying psychic phenomena, and not for the purposes of establishing a new kind of cult about every unexplained vagary of the human mind, but for the purpose of discovering some new benefit for humanity. No one knows better than the doctor the advantage of a good temperament, hope, courage and will power in the sick room, or has been preaching it longer.

If we would spend as much time finding out what the doctors really practice, as we do studying means to ignorantly criticize professors of the one science that it has as its one and ultimate purpose the benefit of humanity, we would keep our premises and our bodies and minds in order, live more happily, both for ourselves and our fellowmen, and live longer.

SOME STORIES AROUND TOWN

Sheriff Ogilvie has received the following letter from Governor Willson:

Your letter is exactly right. I had no thought of commuting Freeman's sentence, and the miserable terror which he showed will certainly be some warning to others who are tempted to commit murder, nor was there any probability that the newly discovered evidence referred to would be of any avail. I decided the case on his own testimony. There was no excuse in his testimony. He went into the restaurant with a pistol to kill the woman and he was not in danger when he started in, and it was natural for her to reach for her knife if she did reach for it, for it was all she could do, and there was never a chance that I should commute his sentence and never a more just sentence.

Yours truly,
AUGUSTUS E. WILLSON.

Attorney A. L. Harper was very much surprised this morning, when entering his office, to find this warning stuck up over his desk:

"A. L. HARPER.
"We, the undersigned, have cleaned up your desk and straightened up books for the last time. Keep things in better shape hereafter. Fair warning. Under penalty of Death."
"NIGHT RIDERS."

Kentucky Kernels

Mrs. Kate Rickman, of Owensboro, cannot secure body of husband in Idaho, because of high water.

Second legislative district Democratic primary August 28. Candidates, W. T. White; J. T. Davis, Carlisle; G. W. Reed, Ballard.

"Why worry about the children?" "I can't help it."

"But, my dear, you are hurting your game of bridge."—Kansas City Journal.

THE PUBLIC FORUM.

The South Needs Her Young Men.

A whole volume of sound sense is compressed into a few words by President Finley, of the Southern railway, in his address to the students of the University of North Carolina. Among other things he said:

"In whatever career the young man of the south may select, he will find opportunities at home among his own people. He will not find it necessary to go either to the north or to the west. As time goes on he will find these opportunities in increasing abundance, for the economic strength of the south, already great, is constantly increasing.

"The wealth of our section in natural resources is being supplemented by increased financial strength, and southern communities are becoming better able to finance their own enterprises and less dependent on outside capital.

"The south needs everyone of her young men, and those who are faithful to her she will bountifully reward.

"Great as has been the growth of the south, that section is only at the beginning of its career of development. The south is not overcrowded with population and can for many years yet furnish opportunities for all who earnestly seek them. Far-sighted financiers, railroad men and other leaders of industry are almost unanimous in predicting that the greatest development of the next two decades in this country will occur in the south."

NO SECRET MEETINGS

Held By the Board of Pardons to Consider Stensland Case.

Joliet, Ill., June 29.—Commissioner E. A. Snively, of the board of pardons, denied that a secret meeting of the board was held at which the case of Paul O. Stensland, who is serving a term for wrecking the Milwaukee Avenue State bank of Chicago, was considered. Snively is the only member of the board here last night. He said the case may come up today if the ex-banker or his friends request it, though no application for Stensland's pardon has yet been made.

IF IT'S ONLY A HEADACHE
Why Cornelison's Headache Liver Pills will cure that. 10 cents. Guaranteed by all druggists.

CHICAGO'S JUNE BRIDES.

Record Will Be Broken By About Two Hundred.

Chicago, June 29.—All Chicago records for "June brides" will be broken this month, according to a statement made by the clerk of the marriage license department. He has issued 3,036 licenses so far this month and the record made last June is 2,068, and it is expected that the figures will be exceeded by about 200. Today's total was 181 and Clerk Salmonson says he expects to issue at least 200 tomorrow.

LAST NOTICE

After July 1 all who owe the city a license tax will be warranted and prosecuted for the failure to pay same.

City License Inspector.

VIRUS SAVED YOUNG WOMAN.

But Love Malady Takes Place—Doctor and Patient Succumb.

St. Louis, June 29.—Four years ago Dr. Joseph J. Elcan, a wealthy physician of Mason, Tenn., during a smallpox epidemic, vaccinated Miss Mary Moore, a pretty school teacher in the public schools of Mason. The virus saved the young woman from the disease, but the love malady took its place. Dr. Elcan, at the age of 62 years, married Miss Moore when she was 23 years. The ceremony was performed here in the presence of Nat Mitchell and Mrs. Mitchell, of Memphis, Tenn., the son-in-law and daughter of the bridegroom.

The bride is the daughter of the Rev. Francis Moore, rector of the Episcopal church at Mason.

The couple declare they did not elope, but simply did not want to pry neighbors of their home town to crowd around at the wedding, and came to St. Louis. Dr. Elcan is a brother of Dr. A. L. Elcan, formerly of Memphis.

TAFT TO POSE AS PEACEMAKER

Will Take Steps Toward Establishing Permanent Arbitral Court.

Washington, June 29.—Representative Barthold predicated a joint resolution authorizing President Taft to appoint commissions in the establishment of a permanent international court of arbitral justice and on the limitation of armaments, and to invite the appointment of similar commissions for conference by the country's signatory to The Hague peace conference.

Each commission is to consist of three members, who are to be paid \$7,500 per annum each and is to have a clerk at \$3,000 and a stenographer at \$2,000. All traveling expenses are to be paid by the government. The commissioners are to report plans in detail to the next peace conference.

Rudy & Sons

WAYWARD WIFE COMES TO GRIEF

ROPE BY WHICH SHE WAS BEING LOWERED BROKE.

Her Husband Broke in Door, Rushed to Window to See Spouse Lying on Ground Below.

MAY DIE FROM HER INJURIES.

Atlanta, Ga., June 29.—Caught by her husband with another man, Mrs. Nellie Jobson, a pretty brunette, of 22, married just six years ago, was lowered from a window by a rope of sheets, held by Harry Wolford, the rope parting when she was half way down, precipitating her two stories, breaking her back in the fall.

While Wolford was making every effort to contrive the escape of the woman, her husband was pounding at the door in a vain effort to break it down. Just as the rope parted and his wife fell to the alleyway below, the door gave way and the husband rushed in.

A glance around the room showed that his wife was not there, but a look at the open window solved the problem. Looking down he saw a helpless lump four stories down. In the meantime officers had placed Wolford under arrest, the warrant having been sworn out for him by the husband.

Both Prominent Socially.

Outside of a general charge of "disorderly conduct" made by the police no information has been given out, Wolford, who is in the police station, Mrs. Jobson at the hospital, and her husband, who is by her side, hoping for her recovery, declining to make any statement.

Mr. and Mrs. Jobson are double first cousins. They have been married not more than six years, and have a little baby. Mr. Jobson is the agent of the Estoria Incandescent Light company, and is prominently known in the business world of the city. Harry Wolford is also a business man, and his wife is one of the most active church workers in the city and has a wide circle of friends of the elite of Atlanta.

It is understood that Mr. Jobson had been suspicious for some time past. Hearing that Mrs. Jobson had accompanied Wolford to the office building, he went to a justice of the peace court and swore out a warrant for Wolford, charging him with a misdemeanor. Then, with his brother and a belief, he went to the building.

Noted Bandit Captured.

Lacrosse, June 29.—James McCarty, leader of Warren's bank robbery gang, was captured single handed by Deputy Game Warden George Mannell, who slipped into McCarty's house at Wausaukee, while the fugitive was absent, and got the drop on him when he returned. He has been missing since Warren's robbery a year ago. He engineered the escape of two accomplices from the Sparta jail a month ago.

LACK OF FARM HANDS.

Says Secretary Who Declares the Country is Highly Prosperous.

Washington, June 29.—Secretary of Agriculture Wilson, who has just returned from a trip through the western states, says that lack of farm hands is the chief cause of the high prices of foodstuffs. "All through the west and northwest the same situation exists," said Mr. Wilson. "The country is as healthy and prosperous as ever it was, but thousands of acres of valuable and fertile land are lying idle because the owners cannot hire labor, although wages paid farm hands in these states are the equal of those paid to the laborers in our large cities."

"The immigrants who land on our foreign shores all flock to the larger cities, and those of them who have done farming in their own country are incompetent and nearly useless to the American farmer, because they don't understand the modern machinery used on farms in this country."

"Prices of grains and vegetables therefore are bound to be high, and of course, with these staples selling at high prices, the value of meats is thereby raised."

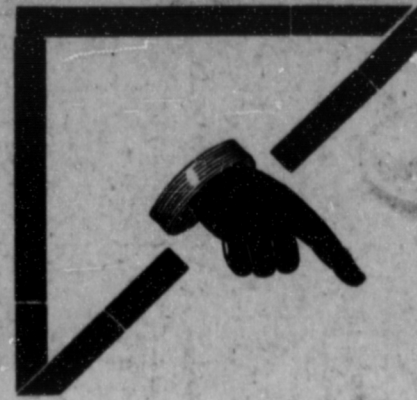

CENSUS BILL IS PASSED.

Salaries of Officials Materially Reduced—Appointments by States.

Washington, June 29.—The senate and house conferees having agreed on the bill providing machinery for the taking of the thirteenth census, both the senate and house today adopted the conference report and passed the bill.

The conferees reduced the minimum clerks' salaries from \$720 to \$600 per annum and the commissioners' salaries from \$7,500 to \$7,000 per annum. All appropriations for a new census building, or rearrangement of the present structure were cut from the bill. It is expected that the reductions will effect a saving of more than a million dollars on the work. Appointments are to be apportioned to the states.

VON BEULOW TO RESIGN.

Will Remain Until Finance Proposals Are Put Through.

Berlin, June 29.—Prince Von Beulow authorized the announcement that he intends to retire from the chancellorship of the empire in any event so soon as the pending finance reform measure is disposed of in one way or another. The prince remains in office only temporarily in an endeavor to pass the bill.

The semi-official Norddeutsche Allgemeine Zeitung, commenting today on the various reports published tending to weaken the significance of Chancellor Von Beulow's statement says:

"Prince Von Beulow besought the emperor to permit him to go at once, but his majesty in the warmest terms expressed the wish that the prince remain in office until the finance proposals had been put through the reichstag."

Mrs. Frank L. Brown is ill at her home on North Sixth street.

IN SOCIAL CIRCLES

Former Paducahans Wed.

Two former Paducah young people, now living in St. Louis, Edward Seamon and Miss Pauline Joyner, of 3501 Washington avenue, St. Louis, went to Clayton, Mo., and were married there by Justice Werremeyer. Mr. Seamon is a baker. He is the son of Henry Seamon, a well known Paducah policeman, and his bride is the daughter of Mrs. Nellie Bengert, wife of a Paducah contractor.

U. D. C. With Former Paducahan. The San Bernardino (Cal.) Daily Sun of June 29, says:

"The E. Kirby Smith chapter of the U. D. C. held the closing meeting of the season at the home of Mrs. O. B. Jones, at 465 H street yesterday afternoon. The cozy cottage was decorated with pink carnations and ferns most artistically. The regular business was disposed of and then a pleasing program prepared by Mrs. Knox was presented and greatly enjoyed by all. Miss Mae Beam sang 'Oh, Promise Me' with feeling and for an encore rendered 'He Was a Prince' being accompanied by Mrs. M. A. Pace. Miss Cora Richardson read an interesting account of the Kirby Smith family, the account being ordered attached to the minutes of the chapter. Mrs. O. B. Jones, the historian, gave a brief history of the work of the chapter for the past year and then the unusual pleasure of a brief address by the Rev. E. L. B. McClellan, pastor of the Presbyterian church of Colton, was afforded the ladies. Mr. McClellan gave a vivid account of the early career of Jefferson Davis, touching with a master hand upon the salient points of his life and character, and closing with a fervent appeal for the perpetuity of the peace secured at such cost.

"At the close of his address, Miss Beam, the first bride-elect to go from the chapter, was invited to the dining room to inspect some mysterious packages that had been placed on the table. Upon inspection these were found to contain evidences of the loving esteem in which her fellow members of the chapter held her. Beautiful pieces of hand work made to adorn her new home were displayed, each challenging admiration. These will be great treasures to the recipient.

"It was a day of gifts and good will, the youngest baby in the chapter, Katherine Roberta Dickson, was presented with the usual token, a solid silver spoon, handsomely engraved, and to crown all, the honored president, Mrs. F. P. McGeehee, was surprised out of her usual self-possession when Mrs. M. A. Knox presented her, in the name of the chapter, with a handsome cut glass vase filled with exquisite carnations. It was truly a gift of love and no one looking upon the face of Mrs. McGeehee could have doubted her surprise.

"After congratulations the hostess served sherbet and dainty cake. Mrs. Jones was assisted in doing the honors by her sister, Miss Cora Richardson, of Kentucky, and Mrs. Harry Jones and Mr. and Mrs. E. B. Jones. Thus closed a very pleasant year for the chapter."

There will be a pleasant social under the auspices of the Ladies' Aid society of the Tenth Street Christian church tonight at 8 o'clock at the church. Ice cream and other ices will be served.

Mr. Harry Gilbert to Spend Summer Here.

Mr. Harry M. Gilbert arrived this morning from New York City to spend his vacation with his mother Mrs. Azelia Gilbert, on Madison street. He will be here until September when he will return to his work in New York. Mr. Gilbert has been wonderfully successful in his profession since going to New York last September, and holds one of the most prominent church organ positions in that city. His public appearances in concert work, in conjunction with prominent artists during the past winter, have attracted marked notice from the critics in a flattering way.

In California.

Mrs. L. W. Jones of South Mt. Vernon avenue, was called to San Diego yesterday by the illness of her sister, Mrs. M. E. Boyd, who is suffering from an attack of pneumonia. Frank Judge, of Phoenix, was the guest of Mr. and Mrs. O. B. Jones in H street, on Friday, being an old friend, formerly of Paducah, Ky.—San Bernardino, Cal., Daily Sun.

House Party at Krebs.

Misses Johanne Lane and Rubie Lane entertained a pleasant week-end house party of Krebs young people at their home near Krebs station. The party included: Misses Beulah Ham, Annie Lane, Lena Smith, Ora Kelly, Lola Durant, Lucy Barfield; Messrs. Lonnie Stegar, Gus Jones, Fred Stegar, Less Ayelott, Roy Ayelott and Rolfe Ayelott.

Dance Last Night at Three Links Hall.

The Glueklich club held its regular fortnightly dance at the Three Links building, Fifth and Kentucky avenue, Monday night. The evening was spent delightfully by the members and their friends. Many couples were in attendance.

Pleasant Occasion for Visitor.

An enjoyable party was given last evening at the home of Mr. and Mrs. Arthur Watts, 1397 Langstaff avenue, in honor of Mrs. Watts' visiting sisters and niece, Mrs. Emma Gore.

Miss Josie Elliott and Baby Dee, of Marion, Ill. Games and music were features of pleasure. Delightful refreshments were served. Present were the following: Misses Ethel Glenn, Mabel Broyles, Madie Watts, Rachel Logan, Hattie Glenn, Josie Elliott; Mesdames Emma Gore, William Phillips, Ben H. Price, Hugh Logan, Oliver Mosely, Harry Adams. Mrs. Maury presided at the table.

Mr. Robert Robinson, of 914 North Seventh street, returned home Monday from Sparta, Ill., after visiting his brother, Prof. Edmund Robinson.

PUT BABIES IN HORSE TROUGH

ENGLISH WOMEN CAN'T TAKE CHILDREN IN SALOONS.

Children Are Tied to Lamp Posts and Left to Own Devices While Mothers Guzzle.

THE LAW IS DEFEATED

London, June 29.—When parliament passed the children's act, which among other things prohibits children from being taken into saloons by their parents, and young persons under 16 from smoking cigarettes, it was thought that a way had been found for dealing with two great evils which afflict this country. The act has been in force for some months and many magistrates and persons who are interested in the welfare of the people declare that the last state of the youth of England is worse than the first.

There are few laws through which, as Dan O'Connell said, one can not drive a coach and horses, and this seems to be a law with a big gateway indeed. The enterprising London publican has already made it not only a dead letter but a farce. The day after the law went into effect one saloon keeper in a London suburb, whose house is a favorite resort for cockneys on Sundays and holidays, cleaned out an old horse trough, filled it with clean straw and labeled it "Creeche." A small boy was placed in charge and mothers were invited to leave their babies in it while they refreshed themselves. A few hours after the "creeche" began business there was a fight in front of the saloon between two intoxicated mothers who could not agree on the ownership of a baby.

ENTHUSIASM MAY BE FATAL.

Spectator Rolls From Top of Grand Stand to Ground Unconscious. New York, June 29.—Wild with enthusiasm, as Dan McGeehan, captain of the visiting team in a game between Elizabeth and Allentown yesterday hit a long drive over the left field fence, Martin McPherson fell into convulsions when the umpire called it a foul.

Thinking the hit a home run, McPherson gave a yell and rolled from the top row of the stand, head first, to the ground, and lay there writhing. A physician at the game took McPherson in charge and had him rushed to the hospital. It is feared he will die, having ruptured a blood vessel.

EDUCATIONAL RALLY IN MCCRACKEN COUNTY.

Prof. E. S. Clark and Superintendent Billington are making the campaign over McCracken county in the interest of education. Tonight they speak at Lone Oak, tomorrow afternoon at Milan and that night at Grahamville. A rally will be held at the Woman's club tomorrow afternoon.

Men's Suits Sent Up by Tariff.

New York, June 29.—Anticipating the effect of the present provisions of the Aldrich tariff bill, the prices of men's clothing have been sent sky high within a week. Clothing dealers report that suits that could be bought a week ago for \$20 are now being marked \$35. Staple worsted and woolens have taken a 35 per cent. rise in the last few days.

Coupled with the tariff anticipation is the increased cost of secured wool, which a year ago cost forty-six cents a pound and which today is quoted at seventy-five cents.

Clothing sellers look upon the situation with much satisfaction, their position being much stronger than it has been in many years.

Immigrants Lack Funds.

New York, June 29.—Immigration Commissioner Williams issued a circular, saying many aliens are arriving, whose funds are manifestly inadequate to support them till they get employment. He warns steamship companies this must cease. They should have at least \$25, besides railroad fare to their destination. He says recently 35 per cent of the arrivals were held up.

\$1,000,000 Gold for Shipment.

New York, June 29.—The National City bank and Heidelberg, Ickleheimer & company each engaged \$1,000,000 in gold coin for shipment to Europe.

Biberach, Germany, June 29.—Count Zeppelin started his airship to Metz, 150 miles. After battling a storm three hours he descended to repair the motor. He traveled 36 miles. He will proceed after repairs.

After a several months' visit to Mrs. J. L. Watts, of 502 South Third street, Mrs. L. B. Ceil and her son, Lloyd, left Sunday for Wilcox, Ariz., to visit Mrs. Watts' daughter, Mrs. John H. Lee. From there they will go to their home in Los Angeles, Cal.

Remember the big shoe and clothing sale at Michael's, beginning July 1, 122 South Second street.

Mr. W. B. Kennedy returned this morning from Mayfield.

WIFE SAID TO HAVE TAKEN A SHOT AT HER HUSBAND.

Walter Perry and Aggie Perry, colored, man and wife, got into a live ly mix-up this morning about 9 o'clock at their home on Plunkett Hill and as a result of the trouble, both are in jail, Aggie charged with malicious shooting without wounding, and Walter charged with a breach of the peace. It seems that the two have not been getting along just right for some time and this morning things came to a crisis when Aggie is said to have picked up a gun, a 32 Smith & Wesson, and took a shot at her husband. The bullet went wild, passing through the foot of a bed and into the bed clothes. Humane Officer Hurley and City Jailor Clark made the arrests.

THIRD WIFE SEEKS DIVORCE.

Former Actress Wants Separation and Alimony From Aged Sponse.

Philadelphia, June 29.—Professor James M. Munyon, who, at the age of 60 years wedded a former actress in April, 1908, his third wife, is now being sued for divorce. His wife, Mrs. Pauline Louise Neff Munyon, has filed preliminary papers in the common pleas court.

Mrs. Munyon, who is 25 years old, is not seeking absolute divorce. She wants a legal separation with alimony, and the reason stated in the libel filed by her attorney, P. F. Rothermel, Jr., is that her husband "looked her out of their Overbrook mansion."

Mrs. J. D. Akers, of 722 Harrison street, left yesterday for Big Sandy, Tenn., to spend the summer with relatives.

Remember the big shoe and clothing sale at Michael's, beginning July 1, 122 South Second street.

BRANDENBURG'S TRIAL.

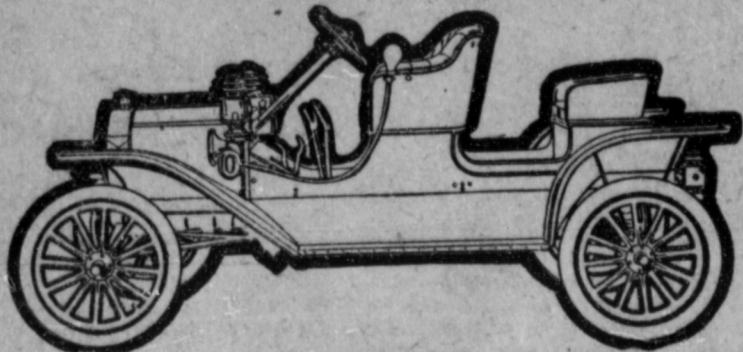

Case Goes to the Jury Some Time Today.

New York, June 29.—The end of the trial of Broughton Brandenburg, charged with the sale of an alleged spurious letter of Grover Cleveland to the New York Times, drew near today with the commencement of the summing up by the attorneys of the defense and prosecution. The case will go to the jury today. This evening was occupied by the argument of Oswald N. Jacoby for Brandenburg.

GOV. BROWN USES GOURD.

NEW YORK-TO-SEATTLE FORD WINS

You Will Have to Watch the FORDS Go By. WHY? You Can't Hear Them.

Amid cheers of thousands of people who blocked the streets of Seattle, and the main entrance of the Alaska-Yukon-Pacific exposition, FORD entry No. 2 came thundering down hill on the last seventy-five mile dash, winning the ocean-to-ocean contest after a drive of twenty-two days and fifty-five minutes. The mud-bespattered Model "T" with B. W. Scott at the wheel checked in at 12:55:35 o'clock.

The race was from New York to Seattle. From New York to St. Louis the cars ran on schedule time via Buffalo, Cleveland, Toledo, Chicago and St. Louis. From St. Louis it was go as you please. The course from St. Louis was to Kansas City, Denver, Colo., and then up through the mountains to Seattle. Before the race some sixteen cars were entered, but for some pretext or other withdrew from the contest, only six cars starting. Special inducements were made manufacturers to enter their cars, but fear of the mishaps, or perhaps the fear of being beaten by the LOWEST-PRICED HIGH-GRADE CAR in America made them keep out. Another noteworthy fact is, that all the leading motor magazines have ignored this run. Very little reading matter was put in before the run and none since. No contest except around the world has been so severe, as all kinds of roads were encountered and every climate entered. The Ford cars entered were the Model "T" 20-24 horsepower, 100-inch wheel base. In fact the same car they have been telling you is too light and will not stand the rough usage of some of its rivals.

The FORD on account of its light weight and sufficient horse power will stand more hardships and cost less to operate than any other car made today.

Nurses Hold Their State Meeting.

Louisville, June 29.—Various modern approved methods of nursing will be discussed at the third annual meeting of the Kentucky State Association of Graduate Nurses, which meets at the Woman's club, today and Wednesday.

The opening session will be held at 2 o'clock, when Mayor Grinstead will deliver an address. Miss Margaret M. Murphy, superintendent of the city hospital, Henderson, Ky., will respond. Several other addresses will be made in the afternoon, and at 5 o'clock the convention will be

guests at a large garden party. The program for Wednesday is as follows:

9 a. m.—Executive Board meeting, Norton Memorial Infirmary.

10 a. m.—Call to order. Roll call. Reading of the minutes.

Address—Miss Laura Wilson, president of Kentucky State Association of Graduate Nurses.

Report of officers of the association.

Report of chairmen of standing committees.

Report of revision committee.

Report of alms house committee.

Report of Guild of St. Barnabas committee.

Paper—"Visiting Nurses," Miss Katherine Jenkins.

Report of delegate to Kentucky Federation of Women's Clubs, Owensboro, Ky., Miss Mary Alexander.

Report of delegate to Nurses' Associated Alumnae of the United States at Minneapolis, Minn., Miss Annie E. Reice.

2 p. m.—Paper, "Neighborhood Housework," Miss Shoemaker.

Discussion—"Neighborhood House and Welfare Work," Miss Anna Dorcas, Lexington; Miss Nora Johnson, superintendent of nurses, Louisville city hospital.

Address—"The Hygiene of Play," Mrs. P. F. Barbour.

Paper—"Nursing on Private Duty," Miss Katherine Arnold.

Essay—"Affiliation," Miss Katherine Daum, superintendent Jewish hospital, Louisville, Ky.

Adjournment.

6 p. m.—Banquet at Fountaine Ferry park.

Thursday morning there will be a meeting of the executive board, followed by reports of presidents of alumnae associations. The readings will be followed by the election of officers and transaction of miscellaneous business. Adjournment will be taken at noon.

SETTLED.

Pittsburgh Street Car System Is in Operation Today.

Pittsburgh, June 29.—At 10 o'clock last night the street railway strike was officially at an end. In the office of Mayor Magee an agreement was signed by the officials of the company and the executive committee of the employees. The settlement is satisfactory to both sides, and cars will resume operations the same as before the strike.

Gompers in London. London, June 29.—Samuel Gompers, president of the American Federation of Labor, arrived in London. He was met by David J. Shackleton, James A. Seddeth, both members of the house of commons, and other labor leaders.

MAXIMUM PRICE

FIXED FOR SCHOOL BOOKS BY ILLINOIS LEGISLATURE.

Fight Led By Newspapers of State Results in Great Reduction in Cost.

Springfield, Ill., June 29.—Although the attorney general has declared that in his opinion the Etteson-Potter bill, fixing a maximum price for school books, is class legislation, it stands on the books of the state now as a law, and will go into effect July 1.

This is the fruit of a big fight, which the press of the state, led by the Chicago Journal, has been making against the so-called "school book" trust. The amended bill provides for a scale of prices for text books used in the grammar grades of the public schools, the establishment of text-book commissions to provide uniformity, and further provision is made that no text books shall be sold at a higher price in Illinois than the same volumes bring in any other portion of the United States.

The law provides the following prices:

Primer	15c
First Reader	15c
Second Reader	20c
Third Reader	25c
Fourth Reader	30c
Fifth Reader	35c

OLD HICKORY VALLEY

Wednesday, June 30, the theater-going public of Paducah will be given a chance to see one of the best river attractions of the year. The Cotton Blossom Floating theater, under the management of Mr. H. E. Steiner, an experienced theatrical man, will present a four-act drama entitled "Old Hickory Valley."

The Cotton Blossom is one of the neatest and coolest boats on the river and from the flattering press reports the Cotton Blossom seems to be one of the best in the business. Besides the high-class drama presented the acts are interspersed with bright and catchy specialties and band concerts are given daily by the band made up of 40 high class musicians.
